

Hello,

I saw advertisement on Glass door and would like to be considered for this position.

Currently, I am working as Web developer (Full Stack Developer) at Alpha Marketing Ltd using different web technology and languages like HTML5, CSS3, JavaScript, jQuery, Foundation framework, PHP, MySQL database, Storyblok and WordPress CMS, GIT and Visual Studio etc.

I am applying for this position because I would like to learn new technology and expand my knowledge and happy to learn new CRM system.

I did coding Traineeship as a full stack developer at IT Carrer Switch including completing 2 real-world projects successfully to specification using a wide range of programming languages.

Also, I worked as Entry-level Front-end Developer in Edumake-Maker space, India. In this we took freelance project from internet and developed in team.

I worked as Junior engineer in Sahajanand Oxygen Pvt. Ltd., India. In this, I designed PCB using Kicad software tool and maintained the control system.

I am reliable and productive with an excellent work ethic. I have excellent communication skills and possess a logical approach and an analytical mind.

I welcome the opportunity to contribute to the future growth and success of your organization and I am confident that my qualifications, aptitude for knowledge and creative talents will be a valuable addition to your already phenomenal team.

Thank you.

Sincerely,

Payal Moradiya
