Skills and Technology:

- Backend development using PHP 7.x and JavaScript
- Front end development using HTML5, CSS3, SCSS, JavaScript, jQuery, Ajax and bootstrap framework
- Stroy Blok CMS
- Third party API's integration
- MySQL Database
- Responsive web development
- Version Control System – Gitkraken

- Photo Editing using Photoshop
- Knowledge of Gulp tool
- Familiar with Agile methodologies
- A good eye for UI/UX Design
- Knowledge of SEO
- Visual Studio Code Editor

CODING TRAINEE

Nov 2019 – Apr 2020 **IT Career Switch Ltd (Apprenticeship)**
Coding Trainee – Full Stack Web developer

- Front end web development using HTML5, CSS3, JavaScript, jQuery, React.js and bootstrap
- Back end web development using PHP 7.0 and MySQL
- Learned OOP language Python, C#, Java
- WAMP configuration and Apache web server
- Code management tool – Git
- Understanding of UI/UX Design
- Remote API access
- knowledge of web standards
- Knowledge of CMS like WordPress
- Responsive website and Page Speed Optimisation.
- Postman, Visual Studio
- Good understanding of development methodologies- Agile

I had passed my **Microsoft 98-383: Introduction to Programming Using HTML and CSS**. More information on this certification can be found at: https://docs.microsoft.com/en-us/learn/certifications/exams/98-383

DEVELOPMENT EXPERIENCE:
Below are the two briefs of development projects I successfully completed:

Portfolio Project #1: "Gazetteer"
The specification was to reply to a website specification for a map-based app to provide information on countries – with a focus on a "mobile first" development. Preferably using a framework, to then develop HTML, CSS and JavaScript with JQuery modules that use PHP server-based components to source data from third party APIs (Geonames, OpenWeather). The solution is assessed on its delivery to specification, functionality, and usability.

Portfolio Project #2: "Company Directory"
A more rigorous reply to this specification was required as a user requirements document was needed to be prepared which, when signed off, triggers the release of SQL allowing to develop a application to maintain a company personnel database (MySQL). Sign off is only achieved upon the student supplying an independently witnessed document providing confirmation of the system's ability to perform error free.

Jun 2019 – Oct 2019   **Relocation to the UK**

Nov 2017 – May 2019   **Edumake-Maker Space, India**
POSITION HELD: **Entry-Level Front-end Developer**
